25X1A SUBJECT: [REDACTED]  
Task Order No. 5

1. A copy of the disclosure of an invention in Improved Photo-Interpretation Apparatus, reported under this Task Order, has been forwarded to you.

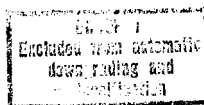

2. Will you let us know whether a patent application covering this subject matter would need to be classified provided it did not indicate Agency interest or connection? Also, since Contractor has not yet decided whether or not to file an application, will you let us know whether you consider the Government interest in the invention sufficiently great to warrant the Government in taking over the case and filing if the Contractor decides not to file?
